

# Form II – Simplified Plan

## Recommissioning of Building Mechanical Systems Grant

\* Mandatory fields

\* Type of plan submitted:  Simplified plan, as below  Planning report attached

### Section 1 – General description of the building

#### Description of building

\* Year of construction:  \* Square footage:

\* Vocation:

#### Energy consumption profile over last 12 months forming reference base

\* Period from  to

#### Source of energy

\* Electricity:  kWh \* Dual energy:

\* Fuel oil:  litres \* Energy intensity:

\* Natural gas:  m<sup>3</sup> \* Expected savings (estimated):

\* Other:

### Section 2 – List of energy systems as well as those in the investigation phase

#### Ventilation

Name	Description	Source of energy <sup>3</sup>	Capacity	Units	At investigation phase
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>

Investigation method employed

# Form II – Simplified Plan

## Recommissioning of Building Mechanical Systems Grant

\* Mandatory fields

### Heating and air-conditioning

Name	Description	Source of energy <sup>3</sup>	Capacity	Units	At investigation phase
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>

### Investigation method employed

### Terminal and other elements, if applicable (valves, coils, VAV boxes)

Name	Description	Source of energy <sup>3</sup>	Capacity	Units	At investigation phase
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>

### Investigation method employed

<sup>3</sup> Codes: E (electricity); O (oil); DE (dual energy) (specify); P (propane); NG (natural gas); O (other) (specify)

# Form II – Simplified Plan

## Recommissioning of Building Mechanical Systems Grant

\* Mandatory fields

### Domestic and process hot water

Name	Description	Source of energy <sup>3</sup>	Capacity	Units	At investigation phase
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>

### Investigation method employed

## Section 3 – Timetables and cost estimates

### Expected timetables and costs

Phase	Expected timetable		Expected costs	
	Start date	End date	Engineering & fees	Implementation of measures
Investigation				
Implementation				
Hand-off				
Monitoring – Year 2				

### Other phases (if applicable)

### Comments:

Complete the blank cells edged in blue

.....

<sup>3</sup> Codes: E (electricity); O (oil); DE (dual energy) (specify); P (propane); NG (natural gas); O (other) (specify)

# Form II – Simplified Plan

## Recommissioning of Building Mechanical Systems Grant

\* Mandatory fields

The customer and his accredited agent agree to respect the terms and conditions and phases of the grant as described in the *Participant's Guide*. The customer must advise Énergir in the case where the plan and timeframe authorized by the terms and conditions of the grant are not respected, failing which, Énergir reserves the right to refuse payment of the financial assistance.

The customer declares that the information provided in all the documents submitted in connection with his/her participation in this grant is accurate and complete. The participant acknowledges that Énergir may check with other organizations likely to be participating financially in this project and to share information with them. The customer acknowledges that any false declaration may lead to the full repayment of the financial assistance awarded by Énergir.

\* Name of company:

\* Name of resource-person:

\* Title:

\* Date:

day / month / year

### Space reserved for Énergir
